## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### DETAILED ACTION

1. This communication is in response to applicant's amendment filed on November 21, 2006. The rejections cited are as stated below:

#### ***Claim Rejections - 35 USC § 101***

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

2. Claims 1, 8, 9 and 10 are rejected under 35 U.S.C. § 101 because the claimed invention is directed to a non-statutory subject matter. Specifically the claims are directed towards an abstract idea.

Claims 1, 8, 9 and 10 represent an abstract idea that does not provide a practical application in the technological arts. There is no physical transformation of data being performed, and no practical application is found. Such an inputting and arithmetic manipulation of data is insufficient practical application to qualify the invention as disclosed and claimed to patent protection. *In re Alappat*, 31 USPQ 2d @ 1556-57 (not until the concept is reduced to some type of practical application, the subject matter is not entitled to patent protection). Consequently, the claims are analyzed based upon the underlying process and thus rejected as being directed to a non-statutory process.

***Claim Rejections - 35 USC § 102***

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-5, 8 and 12-15 are rejected under 35 U.S.C. 102(e) as being anticipated by Kaplan US Patent No. 5,963,916.

Claims 1-5, 8 and 12-15, Kaplan discloses a computer implemented method for providing user requested music comprising the steps of; receiving user input defining a plurality of music search attributes, wherein some of the plural music search attributes describe an emotional quality, situational quality of the user and mood describing of music content (column 14, lines 1-15), searching for music samples based upon the user provided search attributes, presenting music samples to the user based upon the user provided input attributes, determining if the user wants to buy any of the presented music samples, determining if the user wants to sample another set of music samples similar to the music purchased, and determining if the user wants another set of music samples that is different than the purchased music (abstract, column 8, lines 33-67, and column 13, line 31 thru column 17, line 62).

***Response to Arguments***

4. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

**Conclusion**
